

Bridgewater Home Care is a multi-award winning, market leading, provider of private care of vulnerable adults in their own home.

Our highly trained care specialists work closely with both loved one's and family members to learn about their past, hobbies, personality and preferences. Our relationship focused approach to care enables us to understand the person being cared for; enhancing quality of life and exceeding expectations.

Our high quality care at home enhances independence and enables loved one's to stay in their own home for as long as possible, close to family, friends and support networks.

We provide our clients with a standard of care that we would expect for our own family members, keeping loved one's safe and well at home.

“ My wife has Alzheimer's and has almost completely shut down. She can't talk, walk, write, or watch TV. However, the ladies that attend to her everyday needs are kind, understanding, very caring, and are excellent. Nothing is too much trouble for them when looking after my wife. They treat her the same way that my daughter does. They are excellent. The office staff are always obliging and will organise anything they can do to assist and help both my wife and myself. I cannot praise them all too much. If it can be done, it will be done.
Clement (Husband of Client) ”

“ There are no words enough to describe the love and kindness that was given to my husband during his illness. We will be ever grateful to you and your team. We thank you from the bottom of our hearts.
Margaret (Wife of Client) ”

“ It's wonderful being with Bridgewater Home Care, I would recommend them to anybody. After Social Services asked me what being with Bridgewater Home Care was like, I said it was like Heaven. I feel very relaxed and I know I can go away for a break when I need to.
Tom (Husband of Client) ”

Covid-19 Statement

It is our absolute priority to keep the Bridgewater family safe and well during this time. Bridgewater Home Care has all the required procedures, PPE supplies and hygiene standards in place to protect clients and care specialists. We are fully operational 24 hours a day, 365 days a year.

About Us

As a family, we established Bridgewater Home Care in 2010 after our own experiences and challenges with sourcing trustworthy, responsive care at home for our own family members.

These experiences inspired us to create a high quality care service that didn't stop at just dispensing medication and preparing meals.

Like you, we feel that a credible, reliable, and caring service shouldn't be difficult to find. During such a stressful and trying time, the last thing you need is to worry about the quality of care your loved one is receiving.

Quality of care to us isn't just the level of care we provide; it is the systems we use, the unmatched training and support we provide to our care specialists and the relationships we build with both clients and family members.

"Delivering the highest quality care at home is our passion. We are here to improve the lives of people who wish to maintain their independence at home. We go above and beyond to provide the best service to our valued clients"

- Phil Eckersley, Founder

'Best Employer in Care'

Why are we different?

We send the same care specialist to each visit

We introduce our care specialists to the client before services begin

We arrive on time and leave on time – we are not 'clock watchers'

We match the care specialist and client together – this way a relationship builds

We are there for the client (not just the task) – providing person centred, tailor made care

"I feel very proud to say I work for such an amazing care company who are not only there for our lovely clients during this hard time but we are all there for one another"

- Amy, Care Specialist

Join the Bridgewater Family!

We are always looking for people who are interested in making a difference in their community.

We can offer you an opportunity like no other, a career with comprehensive training and ongoing support and development. Working in our care team is more than just a job – we are one family and we support each other.

If you're thinking about a career in care, you will need the drive to make a difference and have a passion to improve the lives of others. You must hold a full UK driving license and have access to a car.

Get in touch with our friendly team now as we'd love to tell you more about life with Bridgewater Home Care
