Small Acts of Kindness volunteering session

We are thrilled to share with you the wonderful experience we recently had volunteering to pack winter bags for elderly individuals in need. It was truly heartwarming to come together and make a positive impact on the Watford community and its surroundings. As we reflect on this experience, we are filled with anticipation for the many more sessions ahead. We look forward to continuing our efforts to support and uplift our neighbors in Watford and beyond.

At Bridgewater Home Care Watford, we cherish the opportunity to spend quality time with our beloved clients, whether it's a walk in the park or engaging in various activities together. Our aim is to combat loneliness by providing companionship and creating meaningful connections that enrich both our clients' lives and our own. Together, we are dedicated to brightening each day and fostering a sense of belonging within our community.

Spotlight On...

Companionship

At Bridgewater Home Care we understand the importance of companionship for older people and vulnerable adults, in particular the importance of providing mental and physical stimulation.

With families often unable to spend as much time as they would like with their elderly relatives it is vital, now more than ever, that we ensure our loved ones have someone to talk to, interact with, and someone who can relate to them and reminisce about old times; helping to re-engage them in today's world.

In recent years an increasing number of older people have described themselves as being 'lonely'; as a relationship focussed home care provider it is our mission to combat this.

Through matching the personalities of every one of our clients with a dedicated Care Specialist it naturally encourages a supportive, trustworthy, friendly relationship and bond to develop; this being the core of our Companionship service.
